HyFlex®

ADVANCED MECHANICAL PROTECTION

11-101

TOUCH SCREEN CAPABLE GLOVES

Touch screen precision and contact

The HyFlex® 11-101 glove delivers the perfect solution for people operating touch screens at work. The gloves are made out of a conductive yarn enabling interaction with a touch screen and providing the necessary precision and sensitivity.

The polyurethane coating allows the fingers to slide gently over the screen. The 11-101 is palm dipped for optimum mechanical resistance and the textile liner, made of high-tenacity polyamide continuous thread, provides comfort through its breathability, tactility and flexibility.

Industries

- Automotive manufacturing
- Construction
- Industrial and consumer goods manufacturing
- Life science manufacturing
- Life science testing labs
- Transportation
- Warehousing and logistics

Applications

- Inventory/storage management
- Machine/device operations
- Maintenance and repair
- Order entry
- Quality assurance
- Package delivery and handling
- Construction foreman data entry
- Project management
- Receiving goods and items

Performance Profile

Conductive yarn
For industrial workers in environments with touch screens, the HyFlex® 11-101 gloves, with advanced mechanical performance, allows them to operate these devices without having to constantly don and doff their gloves.

Polyurethane coating
Enhances the sliding and finger movements on the screen.

High tenacity polyamide continuous thread
The high tenacity polyamide yarn is knitted in a seamless non-stop process. This ensures breathability and all-day comfort along with tactility to handle small parts.

Key features

Palm dipped
The HyFlex® 11-101 is palm dipped for higher mechanical resistance.

Mechanical protection 11-101
EN abrasion level 3 and EN cut level 1.

Dirt masking colours
Grey coating on grey liner hides dirt.

Comprehensive sizing
Sizes 6-11 ensure optimal dexterity and comfort for every employee.

EN Performance Standards

HyFlex®11-101

EN 420

3121
EN 388

HyFlex® 11-101	Palm dipped Liner: High-tenacity polyamide continuous thread, including copper Coating: Stretchable Polyurethane Cuff style: Elasticised knit wrist	6-11	205-255 mm	Grey coating on grey liner	12 pairs/bag, 12 bags/carton

(* Fit for special purpose)

Use product only as specified. Products that provide 'cut resistance', 'cut protection', 'puncture resistance', 'puncture protection', 'abrasion resistance' or 'abrasion protection' do not completely prevent or eliminate the potential for cuts, punctures or abrasions, and are not intended or tested to provide protection against powered blades, serrated or other sharp or rotating equipment. Users are encouraged to always use caution and care when handling sharp or abrasive materials, chemicals or other hazardous or dangerous substances. The suitability of a product for a specific application must be determined by testing by the purchaser. Neither this guide nor any other statement made herein by or on behalf of Ansell should be construed as a representation or warranty of merchantability, or that any Ansell glove is fit for a particular purpose. Ansell assumes no responsibility for any reliance on this guide or for the suitability or adequacy of an end-user's selection of a product for a specific application.
